

Recovery Beyond Addiction

Officer Christine A. Hamilton
East Patrol Operations Division Crime Prevention

Ohio Drug Overdose Deaths

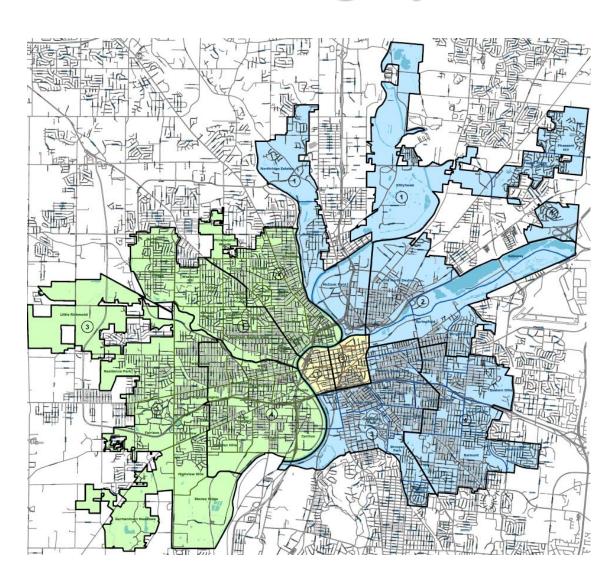

Source: Ohio Department of Health Mortality Data

Note: 2018 ODH mortality data are preliminary and subject to change

Demographic of the City of Dayton

- East Patrol Operations Division is in blue.
- Central Business District is in yellow.
- West Patrol Operations Division is in green.

Demographic of the City of Dayton/Montgomery County

- 140,371 residents / 535,153 residents in the county
- Largest city in southwestern Ohio's Montgomery County
- Previously home to many manufacturing jobs
 - General Motors
 - National Cash Register (NCR)
 - Delphi

What Led to the Opioid Problem in Dayton?

- With the manufacturing jobs, came hard work and labor
- This caused many of the working age and retired citizens with chronic pain
- The Result?
 - Prescription opioids seemed to be the solution to this chronic pain problem
 - 1 out of 4 patients who use prescription opioids for more than a few weeks have the potential to become addicted

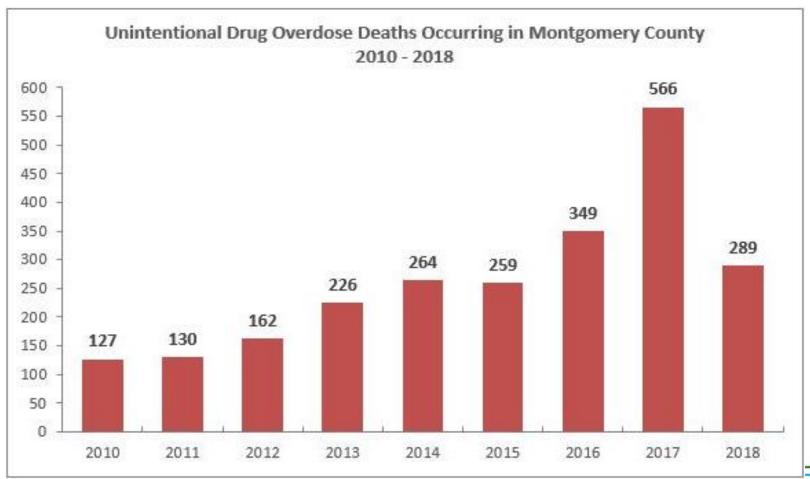

Initial Response to Stop the Opioid Epidemic

- The State of Ohio and Centers for Disease Control and Prevention (CDC) crackdown in 2011
 - Cracking down on for-profit clinics
 - Found that 92 million unnecessary doses of opioid prescriptions were written to patients from 2012 to 2015.
 - Patients turned to the street to find a cheaper alternative to fuel their addiction- heroin and/or fentanyl
 - While Dayton was becoming a source city, cheaper and more potent heroin was readily available to citizens and visitors
 - Easy Access 75/70 interchange

Dayton/Montgomery County Overdose Deaths

Dayton/Montgomery County Overdose Deaths

- Fentanyl contributed to 41%- 2015
- Heroin contributed to 45%- 2015
- Fentanyl contributed to 64%- 2017
- Heroin contributed to 9%- 2017
- Fentanyl was involved in approximately 58% of overdoses across the State of Ohio.

City of Dayton Cost

- Distributed more than \$500,000 in naloxone in 2016 along with \$340,000 in emergency response
 - This cost was borne by a number of institutions throughout the City
- By 2017, the emergency response price tag rose to \$610,000
- Over 90% of individuals interviewed about property crimes in Dayton's East Patrol = drug issue

Most OD Victims Weren't Seeking Recovery Services on Their Own

Shame of addiction

In throws of addiction

- Recently released from incarceration
- Treatment system is hard to navigate

How can we effectively reach out to those struggling with addiction?

How Do We Treat the Opioid Crisis

- The City needed a new approach- medical response, not a criminal justice intervention
- 2016- Ohio House Bill 110 was created
 - Authorized immunity from prosecution in minor drug offenses (misdemeanors or felonies of the 5th degree) for qualified individuals seeking or obtaining medical assistance in a drug overdose
 - -This began with partnerships and a collaborative effort

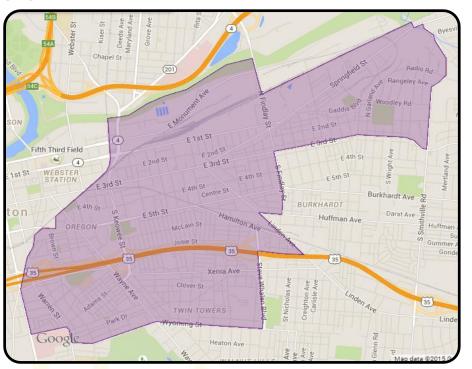

East End Community Services Mission:

To build a prosperous, caring and healthy community that nurtures disadvantaged children toward success-break the cycle of multi-generational poverty

- East End's Neighborhood Revitalization Zone (BYRNE)
- Epicenter of heroin/opioid problem in Dayton
- Bridge the gap between community, law enforcement, and public health

A Conversation for Change

- Pilot program from 2014 to 2016
- Community based initiative loosely modeled after Boston PD's Operations
 Ceasefire
- Held in an informal community setting where health care providers and addiction service specialists are on hand
- Actively seeks individuals, who have overdosed to share information about paths to recovery and the services that are offered
- This partnership gave rise to two other initiatives: Get Recovery Options Working (GROW) and the Mobile Crisis Response Team (MCRT)

A Conversation for Change Data

32 Conversation for Change events in the community

 1,000 attendees seeking services either for themselves or for family members and or friends

 818 attendees received naloxone training that includes a narcan kit (initial kits and refill kits)

Dayton Police Naloxone Deployment Program

Started in September 2014 with Public Health funding

 All DPD Officers, Detectives, and Command Staff issued Naloxone kits with training

DPD Officers also trained to furnish Naloxone kits to individuals in need

GET RECOVERY OPTIONS WORKING

GROW-Get Recovery Options Working

- Started in Spring 2016 (Full time Police Officer December 2016, FT EMS August 2017)
- Multi-disciplined team (Police/Fire, Peer Support)
- Follows up on overdoses within 72 hours in an attempt to get individual into recovery
- Responds to in-progress overdose calls
- Target high overdose areas
- Can provide onsite Naloxone training and furnishing
- Create a referral system between organizations in our city which have created a safe environment for people to receive assistance with treatment and other community resources.

Montgomery County Drug Free Coalition

The Montgomery County Drug-Free Coalition conducts Getting Recovery Options Working (GROW) blitzes that target specific neighborhoods throughout the county based on citizen complaints of drug use and overdoses by going door to door to provide information on available resources. GROW conducted nine law enforcement blitzes. Through the nine blitzes, GROW visited 1,212 houses, had 542 conversations, left information on 673 doors, and referred 24 individuals to peer support.

CarePoint Syringe Exchange Program

Characteristics of Accidental Drug Overdose Deaths in Montgomery County

- The rate of overdose deaths for men is more than 2 times that of women.
- Whites are more than twice as likely to die from an accidental drug overdose than Blacks.
- The highest rate of overdose deaths occurred among 35 to 44 year olds (100.6 per 100,000) and among those who were divorced (110.2 per 100,000).
- Since 2010, there has been a 78% increase in the number of drug overdose deaths.
- Since 2010, drug overdose deaths involving heroin have increased 239%.

Syringe Services Program

Location: Life Enrichment Center 425 North Findlay Street Dayton, Ohio 45404

Hours of Operation: Every Friday from 9:00 a.m. to 3:30 p.m.

Contact Information: Health Outreach Office

Andrea Young Ayoung@phdmc.org Michele Howard-Graham Mhowardgraham@phdmc.org

We Have Free, Clean Needles.

Don't Share Needles, Ever.

(937) 496-7133

CarePoint Syringe Exchange Program

Established in November of 2015 through a declaration of an "emergency."

Research shows that SEPs:

- do not lead to increased drug use
- do not lead to increased crime
- reduce the number of improperly discarded syringes
- help prevent the spread of HIV and hepatitis C

*Help link those who are addicted to drug treatment and life-saving Naloxone services

CarePoint Syringe Exchange Patient Cards

Health Outreach Office (937) 496-7133 www.phdmc.org Open Fridays 9:00am - 3:30pm

This syringe exchange program is endorsed by law enforcement and many community organizations.

Community Overdose Action Team Working Together To Combat Overdoses and Drug Abuse

The Community Overdose Action Team was established in the fall of 2016 to address the opioid/heroin epidemic in Montgomery County.

Montgomery County Alcohol, Drug Addiction & Mental Health Services and Public Health – Dayton & Montgomery County are the lead agencies in the effort to combat the epidemic.

The work of the Community Overdose Action Team seeks to stabilize the number of people dying from drug overdoses and reduce the number of fatal overdoses. In addition, it will identify what services are being offered, look for any existing gaps in services and explore potential new or expanded ways to combat the drug overdose problem.

Opioid Crisis Alignment Challenges

- Existing coalitions
- Hospital systems
- 30+ treatment providers
- Recovery support providers
- Prevention providers
- Harm reduction programs
- Business community
- Other community agencies

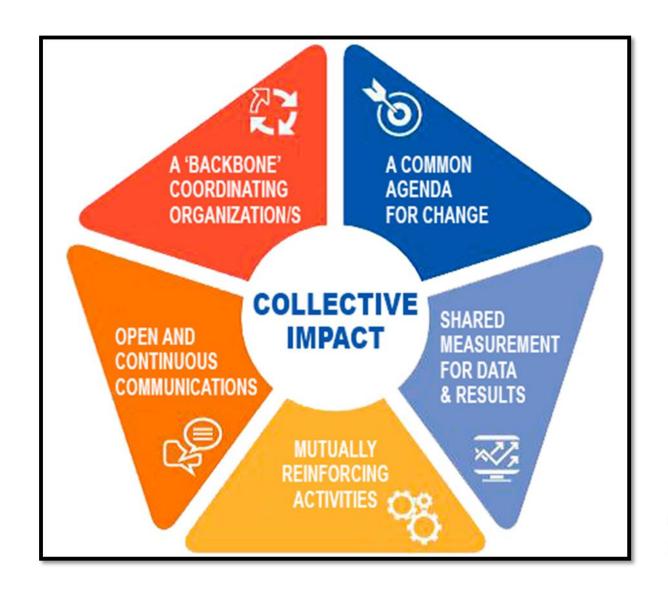

Incident Command System Structure

Used to manage complex multi-agency, multi-jurisdictional incidents / events

- Eliminates duplicative efforts
- Allows for shared decision making
- Requires constant communication
- Uses an Incident Action Plan
- Scalable to meet the needs of the incident /event

Health Improvement... through Collective Impact

Community Overdose Action Team

Steering Committee

Backbone Support

Guide vision and strategies Support aligned activities Advance policy Mobilize resources Identify gaps in services

Operations & Planning Section

Develop & implement action plan
Provide situational status report

Joint Information Center

Coordinate common messaging Respond to media requests Assist branches with communications

Data Unit

Coordinate data collection and distribution

Drug Supply Control Branch

Decrease the supply of illicit and legal substances available for misuse and abuse

Prevention Branch

Develop and implement strategies to prevent substance misuse and abuse

Harm Reduction Branch

Increase capacity of harm reduction programming (syringe services, naloxone distribution, etc.) to provide overdose prevention and engage clients in support services

Response Branch

Coordinate Quick Response Team efforts and ensure there is an emergency plan for a significant cluster of overdoses

Education & Information Branch

Raise public awareness and knowledge of the dangers of substance misuse and abuse

Prescription Branch

Promote use of best practices among health care providers for prescribing

Treatment & Recovery Branch

Expand access to treatment and community support programs

Criminal Justice Branch

Expand access to and use of treatment and community support programs for those involved in the criminal justice system

Collaborative Drug Supply Control

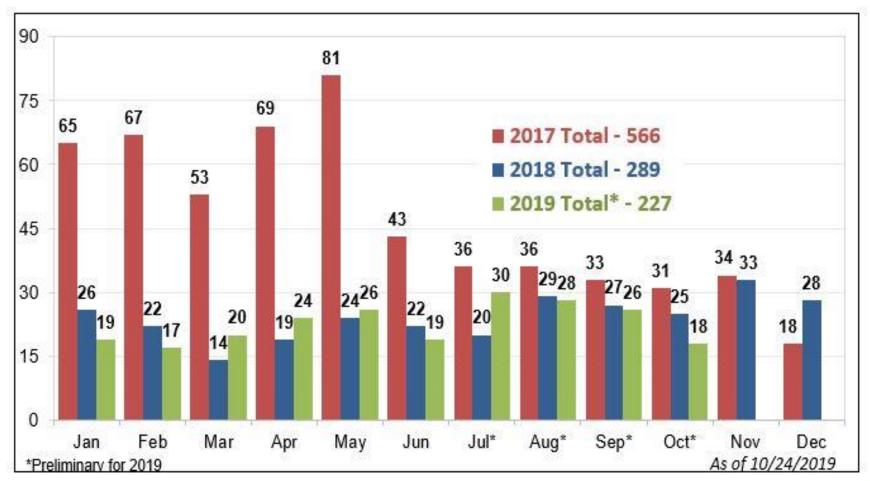

- Drugs seized by law enforcement provide a snapshot of drugs that are present in the community.
 Montgomery County has three task forces working to remove dangerous drugs from our streets:
 - The Miami Valley Bulk Smuggling Task Force includes nine agencies who operate a tip line and intercept smuggled drugs.
 - The Regional Agencies Narcotics and Gun Enforcement (R.A.N.G.E) Task Force includes 12 law enforcement agencies in Montgomery County and works to combat drug abuse and trafficking.
 - The Narcotics Bureau of the Dayton Police Department handles drug enforcement, narcotics support, major cases and street crimes.

Drug	Amount Seized			
Cocaine/Crack (grams)	59,917			
Heroin/Fentanyl (grams)	119,276			
Marijuana (grams)	312,839			
Marijuana (plants)	388			
Methamphetamine (grams)	256,766			
Opioid Pain Pills (grams)	4,939
