## CRIME PREVENTION STUDIES

Ronald V. Clarke, Series Editor

Crime Prevention Studies is an international book series dedicated to research on situational crime prevention and other initiatives to reduce opportunities for crime. Most volumes center on particular topics chosen by expert guest editors. The editors of each volume, in consultation with the series editor, commission the papers to be published and select peer reviewers.

This book brings together papers that were first presented and discussed at a small meeting on evaluation of situational crime prevention and problem-oriented policing, which was held in May 2008 at Stavern, the Norwegian Justice Sector's Center for Training and Practice. We are grateful to the staff of the Center for making our stay a most enjoyable one. They made us very welcome, served delicious meals, and provided comfortable accommodation. We are also indebted to the Norwegian National Police Directorate and the Norwegian Police University College for funding the conference. Without their support this volume would not have been possible. Finally, we would like to thank the participants at the meeting not only for their contributions to this book, but also for the thoughtfulness of their comments on one another's earlier drafts.
